March 27, 2026

- Motivation
- Research gap & Aim of the paper
- Theoretical background
- Results & Discussion

- Use this slide to explain why the topic matters in practice or theory.
Example: mention a policy issue, market trend, research problem, or project motivation.

Key Motivation

This is the core message of your study in one sentence. Keep it concise and audience-focused.

- Start with one strong message in bold, then add a short explanation.

- Use this slide to explain what is missing in the literature or in existing practice.
- End the slide with a clear research question, project goal, or hypothesis.
- Tables work well here for comparisons or summary statistics.

Table: Summary statistics of XX

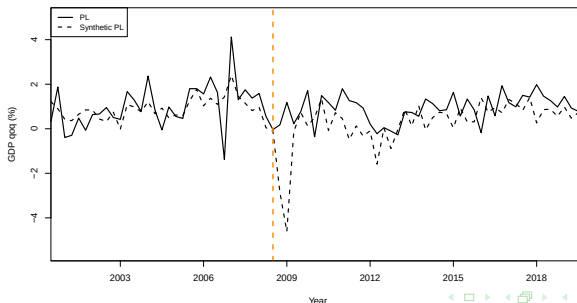

Country	Mean X	Min X	Max X
AT	0.29	0.28	0.30
BE	0.27	0.25	0.29
BG	0.23	0.20	0.28

- Summarize the key theory, framework, or model used in your work [1].
- If needed, include one equation only and explain each variable verbally.

$$Y = \beta_0 + \beta_1 X + \epsilon \quad (1)$$

- Present only the most important result on each slide.
- Figures are often easier to read than dense tables during a presentation.
- Use the discussion point to explain why the result matters.
